Zilofresh  
Zilotex

## **Zilofresh - The Original - Made in Germany**

Fresh air without fragrance in a natural way

In conjunction with air and water, the activated special stainless steel works like a catalyst. The odor molecules are released by dissolving their structures are permanently neutralized and not overlaid with other, mostly undesirable, artificial odors.

Environmentally friendly and without chemical additives, zilofresh works for many years, saves a lot of money, is unique, patented and ensures odor-free, noticeably fresher air.

The diverse areas of application will surprise you, and the results will make you happy. Have fun finding your personal desired application and your contribution to environmental protection.

Odor-free, noticeably fresher air and an environmentally friendly home, without chemicals.

Environmentally friendly free of: chrome, nickel, lead, cadmium, aluminum and meets the requirements of § 31 LMBG.

It is time for sustainability in practice, which is indispensable in today's modern household.

The death of bees affects everyone, even in cities. Allergies, headaches and food intolerance, triggered by chemical fragrances and additives, are becoming a widespread disease. The 50+ generation is increasingly recognizing their responsibility for the next generations.

The young families and the digital generation of the 20plus act more critically and ecologically.

## **zilotex® - environmentally conscious and ecologically valuable**

Strip-free - Hygienic - Clean

The high-quality, bioactive microfiber combines extreme cleaning power and absorption with the antibacterial and odor-inhibiting effect of pure silver nitrate. Strong, lifelong antibacterial effect of the fiber over 99.9% against *Escherichia coli* ATCC 8739 (colibacterium) and *Staphylococcus aureus* ATCC 6538 proven. This counteracts the multiplication of these germs on surfaces.

zilotex® absorbs these bacteria in the cloth during cleaning and destroys them in the fibers through active silver nitrate and moisture.

Due to the special structure of the zilotex microfiber, you can almost do without unhealthy chemicals and disinfectants when cleaning.

zilotex® is suitable for most surfaces and in no time provides streak-free shine, even on your drinking glasses.

Whether kitchen, bathroom or other rooms, with zilotex® you ensure hygiene and cleanliness in the household. Environmentally friendly, without chemical additives and sustainable, washable up to 60 °C.

The diverse areas of application will surprise you.

With zilotex®, even cleaning becomes real fun.

### **Certified: CAS-Nr. 7761-88-8 - EG-Nr. 231-853-9**

Antibacterial microfiber cloth (treated product according to Article 58 of Regulation (EU) No. 528/2012 of the European Parliament and of the Council on the placing on the market and use of biocidal products, product type: 9)

This high-quality microfiber cloth has been treated with the active ingredient silver nitrate (CAS number: 7761 88 8) to provide an antibacterial effect and is compliant with Article 58 of the EU Biocidal Products Regulation No. 528/2012, product type 9.

The composition of the cloth is approximately 70% polyester and 30% polyamide, with a silver nitrate content of 0.1g/m<sup>2</sup>.

100 times finer than a human hair, extremely absorbent - able to absorb 10 times its weight, highest cleaning power, saves valuable working time, maintains shape due to double-stitched edges, odor-inhibiting without chemicals, suitable for use in a dryer, energy-saving by cleaning with cold water, environmentally friendly, washable up to 60°C (without fabric softener).

The antibacterial and odor-inhibiting effect of this microfiber cloth lasts throughout its entire lifespan, preventing the formation of unpleasant odors. It can replace dangerous chemicals and disinfectants.
